NOTE — THE OPPORTUNITIES FOR MERCHANDISING HARDY CHRYSANTHEMUMS ARE PRESENT in any business that has even the smallest identification with things horticultural. They are a brilliant exhibition when we really need their blaze of color. Evergreens are browning, lawns are neglected, trees drop their leaves, and even the sky is less frequent with its cheer. There isn't another plant family that will, as a group, respond as effectively as the **HARDY CHRYSANTHEMUMS**. In the open field, in pots, cloversets, in beds, in the greenhouse, in the landscape planting, and over the counter at the seed store, garden shop, or florist shop, they sell themselves irresistibly. We are always current with ideas for profitable layout and turnover. If you can use any of our information, it will be a privilege to correspond.

The Best List of Garden Mums in the U. S.

New Listings and Introductions

We have taken the liberty of departing from the usual style of our Mum listing this Spring to bring to the foreground what we think is unquestionably the greatest, most beautiful collection of new and outstanding varieties it has been our privilege to offer in any given year. All of these varieties are **improvements**; chosen and listed only because they **are**. Such outstanding things as flower size, unfading colors, sturdiness, duration of bloom, frost tolerance, substance, and texture have been taken into consideration by the hybridizers; tried, tested and now proudly presented as evidence of success.

This list embodies the efforts of such famous hybridizers as Dr. Kraus (in our mind the greatest single contributor to the development of the modern "garden mum"), De Petris, Lehman, Bristol, Conard-Pyle, University of Nebraska, Cheyenne Field Station, as well as our own.

Every care is given to these plants in our effort to get them to you in the best of condition. All have been lighted, soil treated, sprayed and fertilized and are growing in composted soil, sure to bloom and develop prize winners for you.

ALBION — Large reflexed clean white flowers are produced by this exceptionally rugged compact plant. This variety blooms with vigor at the beginning of the season.
POTS — Per 10, \$2.50; Per 100, \$20.00

ARTIST'S DELIGHT — An exceptionally pleasing pastel in a coral geranium pink. Perfect cutting sprays of bloom contain nicely formed 3 inch blooms. Soft and pleasing.
POTS — Per 10, \$3.50; Per 100, \$30.00

BLANCHE LITWILLER — As with any of Dr. Kraus' achievements, we have a good firm flower, weatherproof, growing on robust stock. A large lavender pink pompon, excellent cut and border.
POTS — Per 10, \$3.50; Per 100, \$30.00

When You Think of Fine Perennials — Thanks, for Thinking of . . .

The JOSEPH F. MARTIN Co., Inc.

America's Leading Source For Fine Perennials Where
Good Plants and Good Friends Get Together —

Dear Friends:

Once again we enter the new Spring season as a grateful member of an industry destined for bigger and better things. Everyday throughout the nation, committees of one type or another are forming to "spruce up" and improve property values by altering outward appearance. This applies to slums and suburbs, turnpikes and village approaches, just everywhere imaginable. We in the business, then, should "stock up" and be ready for this ever increasing demand.

The Joseph F. Martin Co. has been bending every effort to keep up with the call for better class merchandise, and you will note that in addition to the most popular perennials, we have added such desirable stock as Azaleas, Boxwood, Daphne, Euonymus, Hypericum, Vicari Privet and others that will be evident as you glance through this list.

Within the pages of this book you will find a paragraph headed "Extra Selling Power" — if you find that such a prospect might interest you, we ask that you give it your consideration.

Thanks once again for the privilege of having been able to serve you, and we look forward to hearing from you soon and often throughout the season.

Sincerely,

THE JOSEPH F. MARTIN CO., Inc.
